LORENZETTI

THE MARSHAL JOURNEY...

1981-1990

The captivating story of Marshal Tools began in the early 1990s when Trevor Marshall took ownership of ZELROY, a prominent manufacturing agent and distributor based in KZN. Towards the end of 1991, Allan Marshall, Trevor's son, joined the company, injecting his passion and expertise into the business and propelling it towards extraordinary expansion throughout the ensuing decade.

2003-2007

As Zelroy experienced rapid expansion, its horizons broadened to include the importation and distribution of various local and international brands. It was during this period that "Marshal Tools" brand was born. A strong focus on building relationships and a commitment to providing exceptional customer service became the driving force behind Marshal Tools' success, influencing its trajectory as a trusted provider in the industry.

2007-2015

In 2007, Marshal Tools seized a promising opportunity to form a partnership with a respected local wholesaler, Mattken Industries, which was under the leadership of Carl Page. Recognizing the synergies between the two companies, Trevor and Allan saw the potential for growth and decided to merge their businesses. This strategic move allowed them to effectively cater to various sectors, including engineering, industrial, DIY, electrical wholesale, plumbing, and paint. With Trevor Marshall's retirement, the reins were handed over to the capable hands of Allan and Carl, who were now ready to lead the company into a promising future. Notably, the company experienced remarkable growth during this period, relocating to larger premises in 2010 and expanding its network of proficient and enthusiastic sales representatives and agents.

2016-2020

The year 2016 marked a significant milestone for Marshal Tools as it unveiled a momentous collaboration. Marshal Tools secured the distribution rights for Tolsen, an internationally recognized brand that has made its mark in over 150 countries worldwide. The extensive Tolsen product range, boasting more than 3000+ product offerings, delivers exceptional value for money with an impressive quality-to-price ratio. Marshal Tools was able to further extend the distribution of its product ranges both nationally and to neighbouring SADEC countries, cementing its presence in the market.

2021-2023

A new and stronger Marshal Tools came into being. Under the guidance of new leadership including a newly formed board of directors, the company not only experienced remarkable growth but also expanded its product range and market presence by enhancing and modernizing its operations in KZN. In 2021, that expansion included an exclusive partnership with Lorenzetti International, inventors of the renowned instant water heater. In a forward-looking move, Marshal Tools took a significant leap into the future in 2021 by opening a new branch and distribution centre in Cape Town. This strategic expansion facilitated business growth, improved logistical efficiency, and enhanced accessibility for customers in the region. Recognizing the potential for further progress, another branch and distribution centre were subsequently opened in Johannesburg in 2023, amplifying the growth trajectory of Marshal Tools. Continuing its path of expansion, Marshal Tools forged an exclusive partnership with 3M, a world-renowned provider of adhesive products, safety products, personal protective equipment, and superior tapes. Within the 3M umbrella, the Scotch and Command brands have earned international recognition, boasting over a century of scientifically backed expertise.

Today

Marshal Tools takes immense pride in its commitment to cultivating robust and enduring partnerships with its valued customers. The dedicated team consistently goes above and beyond to not only procure and deliver top-notch products but also to serve as a trusted supplier that adds significant value to the customers' businesses through an extensive range of high-quality offerings and value-added services. This approach fosters the creation of a sustainable ecosystem wherein the supplier and the customer not only harmoniously coexist but also mutually thrive, achieving remarkable growth together.

WHO WE ARE

Lorenzetti is renowned for inventing the world's first electric shower in the 1960's. With a Proud Company History that spans over 100 years. Lorenzetti's range has a variety of affordable to luxury Electric Showers that'll upgrade your bathroom and help save more than 50% on both electricity and water.

The elegantly designed products are certified by International safety and SABS ratings. The Lorenzetti shower head is a popular choice for those seeking a high-quality shower experience as this product is known for its reliability, durability, and powerful performance. It features a sleek design and is made of high-quality materials, and from specially formulated thermoplastics. Lorenzetti units have long lasting heating elements that don't require you to have a geyser, however it is compatible with a solar geyser. The shower head also comes with a range of settings, allowing users to adjust the water flow and temperature to their liking. Marshal tools are the exclusive distributors for Lorenzetti electric water heaters in South Africa.

HOW IT WORKS

A Lorenzetti electric shower works by utilizing electricity to heat the water as it passes through the shower head. The electric shower head is connected to the water supply in your bathroom, typically through a pipe that delivers cold water.

Inside the shower head, there is an easily replaceable heating element made of conductive materials, stainless steel and copper. These elements are responsible for heating the water. The shower head is equipped with temperature controls that allow you to adjust the desired level of hot water.

When you turn on the shower, the water starts flowing through the heating elements. As the water flows through the shower head, an electric current is passed through the heating elements. This current generates heat, which transfers to the water as it flows over and around the heating elements. The heated water is then delivered through the shower head, providing you with a constant supply of hot water for your showering needs.

LORENZETTI
ELECTRIC SHOWERS

SAVE WATER SAVE ELECTRICITY INSTANT HOT WATER NO GEYSER REQUIRED

OVERALL FEATURES

1. Power SAVINGS

Lorenzetti electric showers feature advanced technology that maximizes power efficiency. With their instant heating system, you no longer need to wait for the water to heat up, reducing unnecessary electricity consumption. By eliminating the need for a geyser, Lorenzetti showers offer more efficient power usage, as traditional geysers consume energy to keep the water hot continuously.

2. Water SAVINGS

Lorenzetti electric showers are designed to optimize water usage without compromising on a satisfying shower experience. These showers come with flow regulators that control the amount of water used per minute, ensuring that you can enjoy a refreshing shower while minimizing wastage. By reducing the flow rate, you can save a significant amount of water, which not only benefits the environment but also reduces your water consumption, ultimately leading to lower water bills.

3. No Geyser REQUIRED

One of the key advantages of Lorenzetti electric showers is that they eliminate the need for a traditional geyser. Instead of heating and storing large amounts of water, Lorenzetti showers use an instant heating mechanism, enabling you to have hot water on demand. By removing the need for a geyser, you save both in terms of energy consumption and the costs associated with its maintenance, repair, and replacement.

4. Durability and Longevity:

Lorenzetti showers are renowned for their reliability and long lifespan. By investing in a high-quality shower system, you can enjoy its benefits for years to come, reducing the need for frequent replacements. This not only saves you money but also minimizes waste by avoiding unnecessary disposal of shower units.

5. Eco-Friendly Choice:

By opting for Lorenzetti showers, you make an eco-friendly choice. With their power- and water-saving features, you actively participate in conserving natural resources while reducing your carbon footprint. Lorenzetti showers are designed to promote sustainability and provide an environmentally responsible bathing solution for consumers.

6. AFFORDABLE ACCESS

Lorenzetti Believes in providing affordable access to hot water for the whole of southern africa

LORENZETTI

ELECTRIC SHOWERS

FEATURES & BENEFITS

- No Geyser Required
- Save Water & Electricity
- Instant Hot Water
- High Performance Jets that are designed to also work with a low-pressure system
- Durable Heating Element that guarantees quick and safe replacement.
- Electronic Control for Gradual and Precise Temperature Selection
- Durability and Longevity
- Eco-Friendly Choice
- Affordable Access

The Loren Bello Ultra Max Arm White 220v 5500w enhances your bathroom with a luxurious shower experience. Its larger spreader and three temperature settings let you customize your shower for optimal comfort.

SABS approved and compatible with RCCB devices, this unit ensures top safety and fault protection. Enjoy water and electricity savings since it operates without a geyser.

The Loren Shower Electronic 220v / 6800W offers a delightful shower experience with customizable multi-temperature settings.

Easy to install, it is SABS approved and RCCB compatible for enhanced safety. Its durable Loren Ultra Heating Element ensures long-lasting reliability. Enjoy a more immersive shower with the big spreader feature.

The Top Jet Multi Temp 220-240v 6000/7200w offers ultimate convenience and comfort with electronic multi-temperature control. Easily adjust the temperature with the control pin for perfect warmth every time.

Installation is simple and doesn't require a geyser. The heating element allows quick replacement, saving time. SABS approved and RCCB compatible, it ensures enhanced safety and fault protection.

THE SANNITREE® PROMISE 100% Natural & Friendly To People, Animals, Plumbing & The Environment

Developed by our own world-class enzymologist and backed by the best technical support, our product line is constantly undergoing research and development to ensure we are at the forefront of enzymology development.

The Most Effective And Most Economical Way To Break Down Organic Waste

TURF PONG

A specially formulated solution for clean & fresh artificial lawn & indoor pet potty patches Turf Pong™ is a powerful combination of ammonia-eliminating enzymes and odour-eating bacteria.

While enzymes break down ammonia and ammonia crystals on contact, long-acting, odor-eating bacteria continue to replicate until the food supply from the ammonia is finally exhausted. Both the smell and the source are eliminated completely.

Code	Size	Qty
SAN0451	1ℓ	12 Per Box
SAN0468	5ℓ	12 Per Box

PET ODOUR DIGESTER

Odour Digester™ will remove urine odors and other stains and smells caused by pets, blood spilled milk, vomit, and rotten food. It is a secret enzyme cleaner that literally digests organic matter.

The active enzymes in the miracle formula completely remove and eliminate those hard-to-get-rid-of smells! Odour Digester™ is also highly effective at blood stain removal and will remove blood stains on carpets, upholstery, and even porous concrete or bricks!

Code	Size	Qty
SAN0086	250ml	12 Per Box

PONG GONE

Used for the maintenance of portaloos in caravans and on yachts, Pong Gone™ is a triple action formula that deodorizes on flush, breaks down solid waste, and eliminates stinky portaloos smells. It is 100% environment friendly.

BIOENZYMES SEPTIC TANKS (BOX)

Septic tank cleaning, pumping, and pump-outs are expensive. Prevent your septic tank and soakaway from blocking up with our Bio Enzyme Granules™. This simple septic tank bacteria treatment not only reduces odors in the septic tank system, but also prevents the septic tank and soakaway from blocking up. This is an environmentally-friendly product containing enzymes, microorganisms, and bacteria that are harmless to people and pets, and will not damage pipes or fittings. They are fully degradable and enhance the performance of septic tanks and sewage disposal systems. They do not contribute to the pollution of water and contain no phenols or phosphates.

SAN0024	100g	12 Per Box

BIOENZYMES DOUBLE ACTION PITTOILET (SACHET)

Double Action Formula Bio-Enzyme Granules™ are a blend of freeze-dried bacteria and enzymes specially formulated to rapidly digest organic waste and reduce bad odours and the fly population found in and around pit toilets and latrines. It has no significant impact on beneficial insects or organic material.

Code	Size	Qty
SAN0338	100g	12 Per Box

FREE FLO DRAIN CLEANER

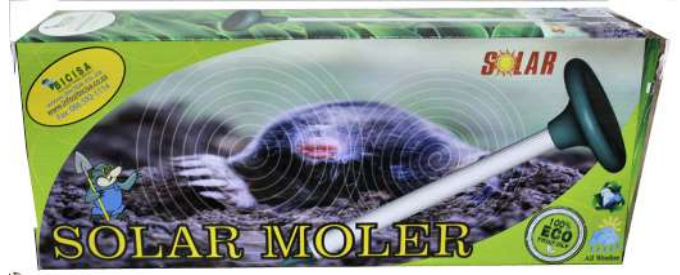

Drain cleaner for the home, bath and shower. Free Flo Granules prevent the build up of grease commonly found in kitchen drain pipes by digesting the fat build up. This helps to prevent blockages from occurring. Free Flo Granules are fully degradable and enhance the performance of septic tanks and sewage disposal systems. They do not contribute to the pollution of water and contain no phenols or phosphates.
